Big Belly Solar Compacting Public Trash and Recycling System Pilot

Big Belly Solar Compactor Public Trash and Recycling System

- Increases efficiency by communicating electronically when containers are full.
- Reduces the number of trash collection by 5 times by compacting trash in the container.
- Freeing up man hours to be used for town wide garbage collection, sidewalk cleaning, filling potholes, truck drivers, or augment other work reducing overtime.
- Creates a uniform Public Trash & Recycling system of containers
- Creates an advertising opportunity with a revenue stream.

Department of Environmental Services

Shade Tree Commission Budget

The following budget identifies 6 projects in order of importance as determined by the Shade Tree Commissioners. Our expectation is to move ahead on the projects based on this priority list.

• Washington Street Tree Project	\$30,200
• Continuing Education Credits (Necessary to maintain a Shade Tree Commissions status)	\$515
• Tree Inventory	\$14,000
• City Wide Planting of 75 Trees	\$28,875
• Tree Maintenance/ Tree Expert Guidance	\$3,000
• City Hall Tree Improvement Project	<u>\$33,800</u>
	\$113,390
