INTER-OFFICE MEMO

Date: January 28, 2014

To: Brandy Forbes, Director Community Development

From: Ann Holtzman, Zoning Officer

**Re: License Agreement Submission for Council Consideration
258 Eighth Street a/k/a Block 170, Lot 41**

This particular submission is for the addition of a new stoop/stair to be added to the front of the building. The existing building is in the Special Flood Hazard Area and was previously entered at grade where the first unit was located. The building is being fully renovated, a 3rd floor is being added, and the lowest occupancy floor is being elevated to 13'2" above sea level, as required. The area below the lowest floor is not being finished for occupancy and will be used for storage only.

Because the lowest floor is being elevated, the architect and developer are proposing addition of a stair on the right-of-way providing direct egress to and from the living floors. The stair is designed to run parallel to the front of the building to minimize the projection into the right-of-way.

This is a cross street, and this particular block does not have other stoops. There are however, fences of neighboring properties that run along this frontage with a maximum encroachment of 4', leaving 6' of sidewalk for pedestrian egress. The proposed stair matches the projection of fence lines along the block frontage.

March 17, 2014

Dear Council Members:

I hope you can join me this Tuesday, March 18 at 7:00pm at Stevens Institute of Technology's DeBaun Auditorium for the annual State of the City address. At the Council meeting on Wednesday, Finance Director Steplight will provide an overview of the budget for introduction. We are also coordinating with Finance Committee Chair Bhalla for a finance committee meeting and budget workshop schedule.

2014 Budget:

For the 5th straight year, we have kept our City's municipal taxes stable. However, unlike in past years in which our tax levy has been flat or reduced, this budget has a slightly less than 2 percent increase in our budget levy.

The largest increases in the budget include contractually obligated labor contracts, tax appeals, and a legacy legal judgment. In order to absorb these added costs and avoid a 4 percent tax increase, the City found a variety of cost savings over last year's budget.

We have restored our budget surplus to an estimated \$6 million cash surplus, however the 2014 budget includes a significant increase in unavoidable expenses.

With your support over the last several years we reached labor agreements with all of our full time unions that were fair to both the employees and our taxpayers. While I believe these agreements were fair to everyone, it is important for everyone to understand that our labor costs have increased by an estimated \$1.3 million annually as a result of the new agreements. Health care costs have also increased by 7 percent, however due to various factors including increased contributions from employees, the impact on our budget is not as large.

As you know, over the last four years we have gone through a challenging process of restructuring our Police Department, our Fire Department and City Hall. While this memo will make some suggestions for working together to find additional cost savings, we believe that over the last four years the City has worked hard and made some tough choices to operate as cost effectively as possible. While we will continue working to find ways to cut costs, we want to remind you of the evaluations and changes that we have made in every department, and therefore we would not support further layoffs as a cost-saving option.

This year's budget also includes \$1 million to cover the costs for known and ongoing tax appeals. This unavoidable cost has resulted in part because the City did not do a revaluation for 25 years.

Since we now have completed the reval, we expect this cost to be gradually reduced as the backlog of appeals is resolved over the next few years.

Finally, the budget includes an \$800,000 judgment against the City as the result of an illegal early retirement plan that was offered by a previous Administration. We pursued a legal strategy to fight the retirement plan in the courts. We won at the Superior Court, lost at the Appellate Division, and have appealed to the Supreme Court. In addition, we lost a litigation matter that was at issue under the former fire chief.

Please also be advised that as a result of a previous Administration's offering of an illegal early retirement program, the City could also face a large future pension cost. We will be working to advocate against this, but want to make you aware that this future pension cost may be unavoidable.

I hope that you will all support the introduction of the budget so that we can begin the formal budget process and move towards an adopted budget. In addition, we hope to work with you on the following measures that could result in cost savings and fairness to Hoboken taxpayers.

Adjustment to Open Space Tax: As a result of the revaluation, we believe that the Open Space Tax needs to be adjusted so that Hoboken taxpayers are not overburdened. We hope to work with the Council through a committee process to make this adjustment as soon as possible (This adjustment can be made by the Council, and does not require a referendum).

Sanitation: The City has seen a \$350,000 annual increase in our sanitation pickup costs. My Administration believes that changes in our sanitation services could represent a significant opportunity for cost savings. First, we ask the Council to consider whether it is fair that Hoboken businesses receive daily trash pickup above and beyond the weekly service that Hoboken residents receive. Significant cost savings could be found if businesses, including restaurants with the heaviest trash from food waste, received the same pickup as Hoboken residents and were required to haul their own trash on the non-pick up days, including holidays (The City pays overtime for holiday pickup for businesses throughout the year). This is a cost issue for the City, but also an issue of fairness to residents. We hope you will consider this issue through the committee process.

Shop Hoboken Property Tax Reward Program: An opportunity to help resident tax payers and business owners is a property tax reward program like one recently launched in Bayonne and Marlboro. The program encourages shopping locally by providing property tax credits applied against the annual property tax bill every time someone purchases goods or services from participating local businesses. I thank Councilman Bhalla for suggesting this idea and urge the Council, through the committee process, to consider whether this makes sense for Hoboken.

Fire Department overtime: An evaluation of Fire Department overtime has determined that staffing changes could result in significant savings. This would require a change to the table of organization. Again, we hope that this proposal could be considered in committee.

Possible grants for planning: This year's budget includes funding for city-wide planning for the Redevelopment Plans for the Hoboken Rail Yards, NJ Transit plan, Neumann Leather Area, Southwest, Western Edge, and North End. While we think it is important to move ahead with the planning for all of these important projects and believe they all need to be funded in part or in whole, we will also be applying for grants through the State's second round of Sandy funding that includes funds for planning.

Capital improvement plan: It has been a rough winter and our roads have seen a lot more damage than usual. We will be proposing a \$2 million bond in order to pave additional roads (4 times more than we are usually able to pave), to improve pedestrian safety at the 12 of our most dangerous intersections, and to complete the construction documents and survey for the redesign of Washington Street. The attached plan assumes that we will receive approximately \$400,000 in State aid for resurfacing roads, but if we receive less, we would like to increase the amount of the bond accordingly. We are also advocating with the State for final approvals to move ahead with repaving Observer Highway, which would utilize an earmark that was secured through Senator Menendez's advocacy.

Working with Finance Committee Chair Councilman Bhalla, we look forward to moving ahead with the budget hearings.

Thank you and best regards.

2014
STATE FISCAL YEAR CAPITAL BUDGET AND CAPITAL IMPROVEMENT PROGRAM

This section is included with the Annual Budget pursuant to N.J.A.C. 5:30-4. It does not in itself confer any authorization to raise or expend funds. Rather it is a document used as part of the local unit's planning and management program. Specific authorization to expend funds for purposes described in this section must be granted elsewhere, by a separate bond ordinance, by inclusion of a line item in the Capital Improvement Section of this budget, by an ordinance taking the money from the Capital Improvement Fund, or other lawful means.

CAPITAL BUDGET

- A plan for all capital expenditures for the current fiscal year.
If no Capital Budget is included, check the reason why:

- Total Capital expenditures this year do not exceed \$25,000, including appropriations for Capital Improvement Fund, Capital Line Items and Down Payments on Improvements.
- No bond ordinances are planned this year.

CAPITAL IMPROVEMENT PROGRAM

- A multi-year list of planned capital projects, including the current year.
Check appropriate box for number of years covered, including current year:

- 3 years. (Population under 10,000)
- 6 years. (Over 10,000 and all county governments)
- ____ years. (Exceeding minimum time period)
- Check if municipality is under 10,000, has not expended more than \$25,000 annually for capital purposes in immediately previous three years, and is not adopting CIP.

NARRATIVE FOR CAPITAL IMPROVEMENT PROGRAM

The City intends to carefully scrutinize all capital projects for 2014 and in the future.

- 5) The **LICENSEE** agrees to maintain liability insurance, inclusive of the license area, in an amount satisfactory to the **LICENSOR** naming the Mayor and Council of the City of Hoboken as additional insured. **Re: License Agreement Submission for Council Consideration
942 Bloomfield Street a/k/a Block 196, Lot 29**

This license submission is for the installation of a new "floor door" hatch and construction of stairs to the basement of the building at the above location. Currently, in the same location, there is a grate-covered opening in the sidewalk and a boarded up opening in the building foundation; these probably served at one time as a coal shoot. The property owner would like to enlarge the opening in the sidewalk to accommodate a flush-mounted steel hatch door. Inside the hatch area, they would like to build new concrete stairs. This opening would not be used as primary ingress/egress for the building; it would serve only as access for maintenance and as safety egress.

The maximum projection of the hatch opening from the building facade is 7'2" ending 2-3 feet behind the existing fence line and projection of the existing principal stoop.

Please let me know if there is additional information you need.

**Re: License Agreement Submission for Council Consideration
121-127 Harrison Street a/k/a Block 26, Lots 13-16**

This license submission is for the installation of a new ADA compliant ramp for ingress and egress to the residential building at the above location. The elevation of the building was adjusted to comply with city and NJDEP requirements. In order to maintain ADA compliance a ramp needs to be added at the front of the building. The ramp proposed will take the place of planting beds on that side of the building that were approved as part of the original site plan.

The ramp will project approximately 4' from the front façade. The maximum projection for the entry platform will be 7'6". The sidewalk, at its narrowest point, will still be 8' wide allowing for easy passage of pedestrians.

Please let me know if there is additional information you need.

Re: **Proposal for Services**
Environmental Services-Remedial Investigation
Multi Service Center
124 Grand Street
Hoboken, Hudson County

Dear Mr. Wiest:

Remington, Vernick & Arango Engineers is pleased to provide you with this proposal for environmental services for the above referenced project. As you are aware, we were designated the NJ Licensed Site Remediation Professional (LSRP) for the discharge from a 5,000 gallon heating oil underground storage tank (UST) that was previously removed from the site. Based on a review of the historical information, we performed some preliminary investigative work at the site. We performed a vapor intrusion investigation of the building to determine whether past testing accurately represented the site conditions. In addition, we performed preliminary soil and groundwater sampling to evaluate the presence and extent of soil and groundwater contamination. Based on a review of the historic information and the results of our current work we offer the following comments:

1. There is no evidence that vapor intrusion is occurring into the building. Note that the site has been identified as having a vapor concern issue (i.e. vapor intrusion is occurring), but the NJDEP does not appear to be requiring the City to do the required corresponding work for a vapor concern case. Therefore, we recommend that no further action be taken in this regard, except to present the results to the NJDEP during the next report submittal.
2. Free product was not observed at the site during the recent investigation. Previously free product had been observed, however none was observed during the recent investigation. Again, the NJDEP was previously aware of the free product but is not requiring any of the corresponding required work be performed. Therefore, we recommend that no further action be taken in this regard, except to present the results to the NJDEP during the next report submittal.

Earning Our Reputation Every Day Since 1901
www.rve.com

3. Residual groundwater contamination (consisting of semi-volatile organic compounds (SVOC) remains at the site. This contamination will have to be delineated and remediated.
4. There is petroleum hydrocarbon soil contamination on site. This contamination extends offsite to the neighboring property. The horizontal and vertical limits of the contamination must be delineated.

In order to bring the site into compliance the soil and groundwater contamination will have to be delineated. Once the delineation is complete the contamination will have to be remediated. To this end we recommend performing this work in a phased approach, the first phase will be to delineate the limits of the contamination. To this end we offer the following scope of work:

1. Perform a series of soil borings to collect soil samples to determine the current soil contaminant levels at the site. The soil will be analyzed for Extractable Petroleum Hydrocarbons (EPH) with contingency naphthalene and 2-methylnaphthalene. These soil borings will be advanced with a Geoprobe. In addition, if feasible given the building interior conditions, we will perform soil borings through the interior floor.
2. We shall also install monitoring wells to characterize the groundwater and begin the process of delineating the groundwater contamination. We propose three (3) monitoring wells at this time. This will allow us to determine the general nature of the groundwater contamination. We anticipate that additional monitoring wells will be required to complete the delineation, however these initial wells will allow us to more efficiently determine additional well locations. The wells will be surveyed by an NJ Licensed Surveyor. The wells will be sampled and groundwater samples will be collected and analyzed for Volatile Organic Compounds (VOC+10) and Semi-Volatile Organic Compounds (SVOC+10).
3. Prepare a Remedial Investigation Report for submittal to the NJDEP including appropriate LSRP forms.
4. Prepare an updated Receptor Evaluation for submittal to the NJDEP.

We propose to complete the engineering services for the above for the following costs:

PROPOSAL

- | | |
|---|-------------|
| 1. Soil/Groundwater Investigation | |

| 2. Well Survey | \$ 2,500.00 |

3. Remedial Investigation Report	\$ 3,500.00
4. Receptor Evaluation	\$ 500.00
5. Project Management	<u>\$ 2,000.00</u>
TOTAL	\$13,000.00

We estimate that the subcontractor services for the above will be approximately \$12,000 to \$15,000. We shall obtain quotes to perform this work and submit them to the City to pay directly. Our proposal excludes DEP fees. In addition, we assume that the above scope of work will result in the full delineation of the contamination, additional monitoring wells, and/or soil sampling and testing may be required. The above scope assumes one (1) round of well sampling. We assume that the City will provide us with offsite access for drilling and road opening permits for drilling in street/sidewalk areas.

The City should note that there is a base regulatory timeframe of March 2017 for the completion of a Remedial Investigation Report that applies to this site (based on the age of the discharge and the presence of groundwater contamination). However, since the soil contamination extends offsite, then an additional year can be added to this timeframe. In addition, the Regulatory Timeframe can be extended for up to 2 years (based on a request for an extension) to a Mandatory Timeframe-which cannot be extended. Therefore, the absolute latest date that the Remedial Investigation has to be completed is March 2020.

If you have any questions please feel free to contact Paul Kenny at (201) 624-2137, ext. 1073.

Sincerely,

Dear Youth Corps Director:

I am pleased to announce that the New Jersey Department of Transportation (NJDOT) will again be implementing the Youth Corps, "Urban Gateway Enhancement Program." As you may know, the NJDOT Urban Youth Corps Program is designed to provide urban youth an opportunity to gain experience and exposure to various careers in transportation through paid summer employment. It also provides participants with a great opportunity to contribute to the improvements in their own community.

This year's program will fund 12 projects statewide and is targeted for implementation during the summer/fall of 2014. NJDOT is seeking local government agencies, not-for-profits, community-based organizations or other entities with established youth programs to participate in the NJDOT 2014 Urban Youth Corps Program.

The primary objective of the NJDOT Urban Youth Corps Program is to enhance gateways in urban areas, to engage youth in meaningful activities and to complement New Jersey's ongoing urban initiatives. Therefore, preferences will be given to applications that target urban communities. Accordingly, if your office/agency services one or more of the urban communities identified in the attached list, I encourage you to apply or to identify appropriate applicants from your community.

A detailed description of the program and an application are enclosed. Please note that the application deadline is **March 14, 2014**. A web-enabled version of the application is available on NJDOT's website at <http://www.state.nj.us/transportation/business/npgrants/>.

For further information or if you have any questions concerning the NJDOT Urban Youth Corps Program, please contact the NJDOT Division of Civil Rights and Affirmative Action at (609)530-3009.

NARRATIVE DESCRIPTION OF PROJECT

I agree to the Terms and Conditions found below.

Problem Statement

Distracted driving is a dangerous epidemic on America's roadways. In 2012 alone, 3,328 people were killed in distracted driving crashes. An estimated 421,000 people were injured in motor vehicle crashes involving a distracted driver. This was a nine percent increase from the estimated 387,000 people injured in 2011.

Distracted driving is any activity that diverts a person's attention away from the primary task of driving. All distractions endanger driver, passenger, and bystander safety. These distractions include:

Texting

Using a cell phone or smartphone

Eating and drinking

Talking to passengers

Grooming

Reading, including maps

Using a navigation system

Watching a video

Adjusting a radio, CD player, or MP3 player

But, because using a hand held cell phone while driving or sending text messages requires visual, manual, and cognitive attention from the driver, they are by far the most alarming distraction.

April is National Distracted Driver Month, which is a time to remind New Jersey motorists of the state's distracted driving laws, which include a ban on hand-held cell phone use and text messaging by all drivers and a ban on all cell phone use (hand held or hands free) by novice drivers.

From April 1-21, 2014, police officers, on an overtime basis, will conduct special enforcement patrols targeting distracted drivers. The patrols will consist of roving patrols and fixed checkpoints.

Objectives

To reduce the number of motor vehicle fatalities in the state with a distracted driver contributing cause by five percent from the 2010-2012 calendar base year average through targeted distracted driving enforcement and education during the *2014 Distracted Driving Crackdown*.

NARRATIVE DESCRIPTION OF PROJECT

Methodology

REMINDER: As per directives from the National Highway Traffic Safety Administration (which provides the federal funding for this grant) Chiefs of Police are **not** eligible to work grant-funded overtime through this grant.****

This federally-funded grant project consists of an enforcement overtime campaign from **April 1 through April 21, 2014**. The project is designed to raise awareness about the dangers of distracted driving, to offer deterrence through visible enforcement, and to issue summonses for relevant motor vehicle violations. The grant will pay for **100** hours of overtime enforcement during the crackdown period, with a maximum rate to be reimbursed of **\$50 per hour**. The 100 overtime hours will be used for roving patrols and checkpoints.

This is a **reimbursement grant**. Participating departments will incur all costs and then submit the necessary documentation to the Division of Highway Traffic Safety for reimbursement.

This is an **enforcement campaign**. A reasonable number of distracted driving related summonses are expected in relation to overtime hours worked.

The maximum project overtime rate is **\$50.00 per hour** regardless of what officer works the project hours. The officer is to receive the full dollar amount in overtime. Administrative costs or fees should be considered "in kind services" or soft matches and are not a part of this grant. **It is up to the agency to establish its pay rate for the project**. The Division encourages agencies to pay all participating officers a flat \$50 per hour rate for this overtime detail, but agencies may pay their usual overtime rates, if they wish, in which case the reimbursement from the Division will be:

Officers paid \$50.00 - project will reimburse at \$50.00 per hour
Officers paid less than \$50.00 - project will reimburse at that lower rate
Officers paid more than \$50.00 - project will reimburse at \$50.00 per hour with the municipality covering the remainder of the rate

Again, the maximum hourly rate to be reimbursed is \$50 per hour, regardless of whether all the grant-budgeted hours are worked or not.

EVALUATION (ADMINISTRATIVE (PERFORMANCE) EVALUATION)

I agree to the Terms and Conditions found below.

1. News release sent to local media and resolution/proclamation approved by local governing body.
2. A reasonable number of distracted driving related summonses issued in relation to overtime hours worked.
3. Timely submittal of Enforcement Summary Report in SAGE by May 2, 2014.
4. Financial Reimbursement reports submitted in SAGE by May 21, 2014.

Chapter 44. LAND USE PROCEDURES

Article I. PLANNING BOARD

§ 44-101. Establishment; Composition

A. Members. There is hereby established a Planning Board of the City of Hoboken, of 9 regular members in accordance with the provisions of N.J.S.A. 40:55D-23; positions specified as follows:

- (1) One Class I member: the Mayor or the Mayor's designee in the absence of the Mayor;
- (2) One Class II member: an official of the municipality, other than a member of the governing body, to be appointed by the Mayor;
- (3) One Class III member: a member of the governing body to be appointed by it; and
- (4) Six Class IV members: citizens of the municipality to be appointed by the Mayor.

B. Alternate members.

- (1) Two Alternate members, who meet the qualifications of Class IV members, shall be appointed by the Mayor. Such alternate members shall be designated, at the time of appointment, as "Alternate No. 1" and "Alternate No. 2."
- (2) Alternate members may participate in discussions of the proceedings but may not vote, except in the absence or disqualification of a regular member of any class. A vote shall not be delayed in order that a regular member may vote instead of an alternate member. In the event that a choice must be made as to which alternate member is to vote, Alternate No. 1 shall vote.

C. Substitute members. If the Planning Board lacks a quorum because regular or alternate members are prohibited from acting on a matter because those members have a personal or financial interest

therein, regular members of the Zoning Board of Adjustment shall be called upon to serve as substitute members in accordance with N.J.S.A. 40:55D-23.2.

D. Class IV members shall hold no other municipal office, position or employment.

§ 44-1. Establishment; composition.

A. Members. There is hereby established pursuant to P.L. 1975, c. 291, in the City of Hoboken, a Planning Board of members consisting of the following four classes:

(1) Class I: the Mayor or the Mayor's designee in the absence of the Mayor. [Amended 7-11-2001 by Ord. No. DR-3]

(2) Class II: one of the officials of the municipality, other than a member of the governing body, to be appointed by the Mayor.

(3) Class III: a member of the governing body to be appointed by it.

(4) Class IV: six other citizens of the municipality to be appointed by the Mayor.

B. The members of Class IV shall hold no other municipal office, position or employment. For purposes of this section, membership on a municipal board or commission whose function is advisory in nature and the establishment of which is discretionary and not required by statute shall not be considered the holding of municipal office.

C. Alternate members.

(1) Not more than two alternate members, who shall meet the qualifications of Class IV members, may be appointed by the Mayor. Such alternate members shall be designated at the time of appointment as "Alternate No. 1" and "Alternate No. 2." The terms of the alternate members shall be for two years, except such terms shall be such that the term of not more than one alternate member shall expire in any one year; provided, however, that in no instance shall the term of the alternate member first appointed exceed two years. A vacancy occurring otherwise than by expiration of term shall be filled by the Mayor for the unexpired term only.

(2) Alternate members may participate in discussions of the proceedings but may not vote, except in the absence or disqualification of any member of the regular class. A vote shall not be delayed in order that a regular member may vote instead of an alternate member. In the event that a choice must be made as to which alternate member is to vote, Alternate No. 1 shall vote.

§ 44-102. Terms of Office

A. The term of the Class I member shall coincide with the term of the Mayor, except that if the Mayor appoints a designee as the Class I member, the designee shall serve at the pleasure of the Mayor.

B. The terms of the Class II and Class III members shall be for one year or shall terminate at the completion of their respective terms of office, whichever occurs first.

C. The terms of all Class IV members first appointed pursuant to this chapter shall be so determined that, to the greatest practicable extent, the expiration of such terms shall be distributed evenly over the first four years after their appointments, as determined by resolution of the governing body; provided however, that no term of any member shall exceed four years, and further provided that nothing herein shall affect the term of any present member of the Planning Board, all of whom shall continue in office until the completion of the terms for which they were appointed. Thereafter, all Class IV members shall be appointed for terms of four years except as otherwise herein provided.

D. The terms of the Alternate members shall be for two years. Expirations of Alternate terms shall be distributed such that not more than one alternate member shall expire in any one year.

§ 44-2. Terms of office.

~~A. The term of the member composing Class I shall correspond with his official tenure.~~

~~B. The terms of the members composing Class II and Class III shall be for one year or terminate at the completion of their respective terms of office whichever occurs first.~~

Thereafter, all Class IV members shall be appointed for terms of four years except as otherwise hereinabove provided. All terms shall run from January 1 of the year in which the appointment is made.~~

The Planning Board shall not, however, exceed, exclusive of gifts or grants, the amount appropriated by the governing body for its use unless a court of competent jurisdiction finds the appropriation to be unreasonable.

E. The Planning Board Chair shall appoint four regular members of the Planning Board to a "Subdivision and Site Plan Review Committee" (SSPR Committee). The SSPR Committee shall operate in the following manner and have the following powers and duties:

(1) To review all applications submitted to the Planning Board prior to a formal hearing thereon.

~~C. Subdivision and Site Plan Review Committee. The Board shall appoint a Committee consisting of four regular members of the Board which shall be known as the "Subdivision and Site Plan Review Committee." The Committee shall review all applications submitted to the Board prior to a formal hearing thereon. Neither the developer nor the Committee shall be bound by any concept plan review. In the case of minor subdivision applications, such Committee may unanimously approve the same in accordance with the 1959 Land Subdivision Ordinance of the City of Hoboken. § 44-105. Powers and Duties of the Planning Board

The Planning Board, in accordance with N.J.S.A. 40:55D-25, shall have the following powers and duties:

- A. To prepare and, after public hearing, adopt or amend a Master Plan or component parts thereof, to guide the use of lands within the municipality in a manner which protects public health and safety and promotes the general welfare in accordance with the provisions of N.J.S.A. 40:55D-28.
- B. To reexamine, at least every ten years, the Master Plan and development regulations; prepare and adopt by resolution, to the governing body, a report on the findings of such reexamination in accordance with N.J.S.A. 40:55D-89, and any necessary amendments resulting there from.

- C. To review and approve preliminary and final subdivision applications, in accordance with Chapter 34, Subdivision of Land, of the Code of the City of Hoboken, and attach reasonable conditions to the approval thereof.
- D. To review and approve preliminary and final site plan applications, in accordance with this Chapter and with Chapter 196, Zoning, of the Code of the City of Hoboken, and attach reasonable conditions to the approval thereof.
- E. To review and approve conditional use applications, in accordance with Chapter 196, Zoning, of the Code of the City of Hoboken, and attach reasonable conditions to the approval thereof. In cases where a "d" variance is sought, the application for conditional use will be heard by the Zoning Board of Adjustment.
- F. To participate in the preparation and review of programs or plans required by state or federal law or regulations.
- G. To assemble data on a continuing basis as part of a continuous planning process.
- H. To prepare annually a program of municipal capital improvement projects over a term of six years, and amendments thereto, and recommend the same to the governing body.
- I. To consider and make a report to the governing body, within 35 days after referral, as to any proposed development regulation submitted to it pursuant to the provisions of N.J.S.A. 40:55D-26a, and also to review other matters specifically referred to the Planning Board by the governing body, pursuant to the provisions of N.J.S.A. 40:55D-26b.
- J. Granting of Relief; Variances; Direction for Issuance of Certain Permits.
 - (1) When reviewing applications for approval of subdivision plats, site plans or conditional uses, to grant to the same extent and subject to the same restrictions as the Zoning Board of Adjustment:
 - (a) Variances pursuant to N.J.S.A. 4:55D-70c.
 - (b) Direction pursuant to N.J.S.A. 40:55D-36 for issuance of a permit for a building or structure not related to a street.
 - (c) Direction pursuant to N.J.S.A. 40:55D-34 for issuance of a permit for a building or structure in the bed of a mapped street or public drainage way, flood control basin or public area reserved pursuant to N.J.S.A. 40:55D-32.
 - (2) Whenever relief is requested pursuant to this subsection, notice of the hearing on the application for development shall include reference to the request for a variance or direction for issuance of a permit, as the case may be.
 - (3) The developer may elect to submit a separate application requesting approval of the variance or direction of the issuance of a permit and a subsequent application for any required approval of a subdivision, site plan or conditional use. The separate approval of the variance or direction of the issuance of a permit shall be conditioned upon the granting of all required subsequent approvals by the Planning Board. No such subsequent approval shall be granted unless the approval can be granted without substantial detriment to the public good and without substantial impairment of the intent and purpose of the Zoning Map and Chapter 196, Zoning.
- K. To require a developer, as a condition of subdivision or site plan approval, to execute a developer's agreement, post performance and/or maintenance guarantees, and/or pay pro rata cost for off-tract improvements as permitted by law. Off-tract improvements shall include but not be limited to street improvements, improvements to water, sewerage and drainage facilities, and easements therefore, located outside the property limits of the subdivision or development but which are otherwise necessitated or required by construction or improvements within such subdivision or development. Regulations shall be based on circulation and comprehensive utility service plans in accordance with the Master Plan, and shall establish fair and reasonable standards to determine the pro rata amount of the cost of such facilities. Where a developer pays the amount determined as his pro rata share under

protest, he shall institute legal action within one year of such payment in order to preserve the right to a judicial determination as to the fairness and reasonableness of such amount.

- L. To grant exceptions from this chapter and the requirements of subdivision and site plan approval pursuant to N.J.S.A. 40:55D-25(6) and 40:55D-51.

Such regulations shall be based on circulation and comprehensive utility service plans in accordance with the Master Plan of the City of Hoboken, respectively, and shall establish fair and reasonable standards to determine the proportionate or pro rata amount of the cost of such facilities that shall be borne by each developer or owner within a related and common area, which standards shall not be altered subsequent to preliminary approval. Where a developer pays the amount determined as his pro rata share under protest, he shall institute legal action within one year of such payment in order to preserve the right to a judicial determination as to the fairness and reasonableness of such amount.~~

§ 44-106. Application; Procedure; Concept Plan Review

A. Applications for development within the jurisdiction of the Planning Board shall be filed with the Secretary of the Planning Board. The applicant shall obtain all necessary forms from the Secretary of the Planning Board. The Secretary of the Planning Board shall inform the applicant of the steps to be taken to initiate applications and of the regular meeting dates of the Planning Board and of the SSPR Committee.

B. Within 45 days of the date of submission, the Secretary of the Planning Board shall certify an application as complete, in consultation with Planning Board professionals and any applicable municipal commissions and administrators, only if the application, checklist, all documents required by the checklist, application fee, and escrow fees have been received. If the application lacks required information, documents, or fees, or requires referral pursuant to §44-304, the applicant shall be so notified, in writing, of the deficiency and the application shall be deemed incomplete. In the event that an application is not certified as either complete or incomplete within 45 days of its submission, it shall be, by default, considered complete for the purpose of commencing the applicable Time of Decision action by the Planning Board.

- C. The Planning Board, at its discretion, may require any of the following: correction of any information found to be in error; submission of additional information not specified in this chapter; or revisions to the accompanying documents as are reasonably necessary to make an informed decision as to whether the requirements for approval of the application have been met.
- D. At the request of the developer, the SSPR Committee of the Planning Board shall grant an informal review of a concept plan for which the developer intends to prepare and submit an application for development. The developer shall not be bound by any concept plan for which review is granted, and the Planning Board shall not be bound by any such review.

§ 44-107. Time of Decision

- A. Upon certification, by the Planning Board Secretary in consultation with Planning Board professionals and any applicable municipal commissions and administrators, that an application is complete, the Planning Board shall then have:
 - (1) 45 days within which to act on an application for subdivision of ten or fewer lots (N.J.S.A. 40:55D-48);
 - (2) 95 days within which to act on an application for subdivision of more than ten lots (N.J.S.A. 40:55D-48);
 - (3) 45 days for approval of a minor site plan or minor subdivision (N.J.S.A. 40:55D-46.2 and 47 respectively);
 - (4) 45 days for approval of a site plan which involves ten or fewer dwelling units (N.J.S.A. 40:55D-46);
 - (5) 95 days for approval of a site plan which involves more than ten dwelling units (N.J.S.A. 40:55D-46);
 - (6) 95 days for approval of a conditional use (N.J.S.A. 40:55D-61), and;
 - (7) 120 days for approval of a “c” variance or for direction for issuance of a permit pursuant to §44-105.J. (N.J.S.A. 40:55D-61).
- B. Where an application is made simultaneously for site plan or subdivision or conditional use and for a “c” variance or direction for the issuance of a permit, the Planning Board shall grant or deny approval of the application within 120 days. In the event that the developer elects to submit separate consecutive applications, the 120 day period shall apply only to the application for approval of the variance or direction for issuance of a permit. The period for granting or denying subsequent approvals shall be as indicated above.
- C. Minor site plan approval shall be deemed to be final approval of the site plan provided site plan improvements and conditions set forth in Chapter 196, Zoning, and the Municipal Land Use Law (N.J.S.A 40:55D-1 et seq.) shall be met.
- D. The Time of Decision may be extended only by consent of the applicant. Consent shall be made on the record at a hearing or in writing. Extensions on the Time of Decision may be granted for no more than one year from the date of the original Time of Decision deadline, at which time the application shall be acted upon or dismissed without prejudice.
- E. Applications that have been deemed complete shall be scheduled for a hearing before the Planning Board within the time of action stated above. If the applicant fails to appear when scheduled and the time of decision will expire prior to the next regularly scheduled meeting of the Planning Board, the application shall be dismissed without prejudice.
- F. Failure of the Planning Board to act within the period prescribed shall constitute approval of the given application. At the request of the applicant, the Secretary of the Planning Board shall so certify that the

Planning Board failed to act and that the application is therefore approved. Said certification shall be sufficient in lieu of the written endorsement or other evidence of approval herein required.

- G. Approval of a minor subdivision shall expire 190 days from the date on which the resolution of approval is adopted unless, within such period, a plat in conformity with such approval and the provisions of the Map Filing Law, N.J.S.A. 46:23-9.9, et seq., or a deed clearly describing the approved minor subdivision, is filed by the developer with the County Recording Officer, the Municipal Engineer and the Municipal Tax Assessor. Any such plat or deed must be signed by the Chair and Secretary of the Planning Board. The Planning Board may extend the 190 day period for filing a minor subdivision plat or deed if the developer proves to the reasonable satisfaction of the Planning Board that the developer was barred or prevented, directly or indirectly, from filing because of delays in obtaining legally required approvals from other governmental or quasi-governmental entities and that the developer applied promptly for and diligently pursued the required approvals. The length of the extension shall be equal to the period of delay caused by the wait for the required approvals, as determined by the Planning Board. The developer may apply for the extension either before or after what would otherwise be the expiration date.
- H. Final approval of a major subdivision shall expire 95 days from the date of signing of the plat by the Chair and Secretary of the Planning Board unless within such period the plat shall have been duly filed by the developer with the County Recording Officer. The Planning Board may, for good cause shown, extend the period for recording for and additional 190 days from the date of signing of the plat. The Planning Board may extend the 95-day or 190 day period if the developer proves, to the reasonable satisfaction of the Planning Board, that the developer was barred or prevented, directly or indirectly, from filing because of delays in obtaining legally required approvals from other governmental or quasi-governmental entities and that the developer applied promptly for and diligently pursued the required approvals. The length of the extension shall be equal to the period of delay caused by the wait for the required approvals, as determined by the Planning Board. The developer may apply for the extension either before or after what would otherwise be the expiration date.

§ 44-8. Procedure; time limits.

A. ~~Minor subdivisions. Minor subdivision approvals shall be granted or denied within 45 days of the date of submission of a complete application to the Board or within such further time as may be consented to by the applicant. Approval of a minor subdivision shall expire 190 days from the date of Planning Board approval unless, within such period, a plat in conformity with such approval and the provisions of the Map Filing Law, or a deed clearly describing the approved minor subdivision, is filed by the developer with the county recording officer, the Municipal Engineer and the Municipal Tax Assessor. Any such plat or deed must be signed by the Chairman and Secretary of the Planning Board before it will be accepted for filing by the county recording officer.~~

B. ~~Preliminary major subdivision approval. Upon submission of a complete application for a subdivision of 10 or fewer lots, the Planning Board shall grant or deny preliminary approval within 45 days of the date of such submission or within such further time as may be consented to by the developer, unless such application includes a variance request, in which event the Board shall have 120 days from the date of a complete application to render its decision. Upon submission of a complete application for a subdivision of more than 10 lots, the Planning Board shall grant or deny preliminary approval within 95 days of the date of such submission or within such further time as may be consented to by the developer, unless such application includes a variance request, in which event the board shall have 120 days from the date of a complete application to render its decision. Otherwise, the Planning Board shall be deemed to have granted preliminary approval for the subdivision.~~

~~(1) If the Planning Board requires any substantial amendment in the layout of improvements proposed by the developer that have been the subject of a hearing, an amended application shall be submitted and proceeded upon, as in the case of the original application for development.~~

~~(2) Preliminary subdivision approval and any variances granted incidental thereto shall remain valid for three years from the date of such approval. Requests for extensions of such three-year period pursuant to N.J.S.A. 40:55D-49c shall be made within such three-year period.~~

~~C. Final major subdivision approval.~~

~~(1) Application for final subdivision approval shall be granted or denied within 45 days of submission of a complete application or within such further time as may be consented to by the applicant. Whenever review or approval of the application by the County Planning Board is required, such approval shall be conditioned upon timely receipt of a favorable report on the application by the County Planning Board.~~

~~(2) Final approval of a major subdivision shall expire 95 days from the date of signing of the plat unless, within such period, the plat shall have been duly filed by the developer with the county recording officer. The Planning Board may, for good cause shown, extend the period for recording for an additional period not to exceed 190 days from the date of signing of the plat.~~

~~(3) The Planning Board shall grant final subdivision approval if the detailed drawings, specifications and estimates of the application for final approval conform to the standards established for the same, the conditions of preliminary approval and the standards prescribed by the Map Filing Law, P.L. 1960, c. 141, N.J.S.A. 46:23-9.9 et seq., provided that in the case of a planned unit development, planned unit residential development or residential cluster, the Planning Board may permit minimal deviations from the conditions of preliminary approval necessitated by change of conditions beyond the control of the developer since the date of preliminary approval without the developer being required to submit another application for preliminary approval.~~

~~D. Site plan approval: Preliminary and final site plan approval shall be governed by Article IX, § 196-26 et seq. of the City of Hoboken Zoning Ordinance, subject to the following:~~

~~(1) A copy of any application for property within the CBD(H) Subdistrict shall be contemporaneously filed with the Hoboken Historic District Commission.~~

~~(2) On all applications involving a variance request, the Board shall have 120 days from the date of a complete application to render its decision.~~

~~(3) The Board, on granting site plan approval, shall find and set forth in its resolution of approval that the application provides for:~~

~~(a) Preservation of existing natural resources on the site, if any.~~

~~(b) Safe and efficient vehicular and pedestrian circulation, parking and loading.~~

~~(c) Screening, landscaping and proper location of structures.~~

~~(d) Exterior lighting needed for safety reasons in addition to any requirements for street lighting.~~

~~(e) Conservation of energy and use of renewable energy sources.~~

~~(f) Recycling of recyclable materials.~~

~~(4) If preliminary approval is granted, the written resolution of the Planning Board granting the same shall be signed by the Chairman and Secretary of the Board and sent to the applicant and the Zoning Officer, who may grant a first certificate of zoning compliance, subject to the conditions of the resolution, unless such condition(s) necessitate fulfillment prior to the issuance of such certificate. If final approval is granted, the written resolution of approval and the site plan shall be signed by the Chairman and Secretary of the Board and sent to the applicant and the Zoning Officer, who may grant a final certificate of zoning compliance, subject to the conditions of the written final resolution, unless such condition(s) necessitate fulfillment prior to the issuance of such certificate. If a site plan has been denied approval, the written resolution of disapproval shall be signed by the Chairman and Secretary of the Board and sent to the applicant and the Zoning Officer.~~

~~(5) Preliminary site plan approval and any variances granted incidental thereto shall remain valid for three years from the date of such approval. Requests for extension of such three-year period pursuant to N.J.S.A. 40:55D-49c shall be made within such three-year period.~~

~~E. Conditional use approval. Conditional use approval shall be governed by Article X, § 196-35 et seq. of the City of Hoboken Zoning Ordinance, subject to the following: Where an application involves a variance request, the Board shall have 120 days from the date of a complete application to render its decision.~~

~~F. Planned unit development. Prior to the approval of any planned development, the Planning Board shall find the following facts and conclusions:~~

~~(1) The departures by the proposed development from zoning regulations otherwise applicable to the property conform to the standards of urban design review for planned developments under § 196-27.1 of the City of Hoboken Zoning Ordinance.~~

~~(2) The proposals for maintenance and conservation of common open space are reliable, and the amount, location and purpose of the common open space are adequate.~~

~~(3) The provision through the physical design of the proposed development for public services, control over vehicular and pedestrian traffic and the amenities of light and air, recreation and visual enjoyment are adequate.~~

~~(4) The proposed planned development will not have an unreasonably adverse impact upon the area in which it is proposed to be established.~~

~~(5) In the case of a proposed development which contemplates construction over a period of years, the terms and conditions intended to protect the interest of the public and the residents, occupants and owners of the proposed development in the total completion of the development are adequate.~~

~~G. General development plan. General development plan approval shall be governed by Article IX, § 196-34 et seq. of the City of Hoboken Zoning Ordinance, subject to the following provisions:~~

~~(1) The general development plan shall set forth the permitted number of dwelling units, the amount of nonresidential floor space, the residential density and the nonresidential floor area for the planned development, in its entirety, according to a schedule which sets forth the timing of the various sections of the development.~~

~~(2) The planned development shall be developed in accordance with the general development plan approved by the Planning Board, notwithstanding any provision of the Municipal Land Use Law, N.J.S.A. 40:55D-1 et seq., or an ordinance or regulation adopted pursuant thereto after the effective date of the approval.~~

~~(3) The term of the effect of the general development plan approval shall be determined by the Planning Board using the guidelines set forth in Subsection G(4) of this section, except that the term of the effect of the approval shall not exceed 20 years from the date upon which the developer receives final approval of the first section of the planned development pursuant to the Municipal Land Use Law, N.J.S.A. 40:55D-1 et seq.~~

~~(4) In making its determination regarding the duration of the effect of approval of the development plan, the Planning Board shall consider the number of dwelling units or amount of nonresidential floor area to be constructed, prevailing economic conditions, the timing schedule to be followed in completing the development and the likelihood of its fulfillment, the developer's capability of completing the proposed development and the contents of the general development plan and any conditions which the Planning Board attached to the approval thereof.~~

~~(5) The Planning Board shall grant or deny general development plan approval within 95 days after submission of a complete application to the administrative officer or within such further time as may be consented to by the applicant. Failure of the Planning Board to act within the period prescribed shall constitute general development plan approval of the planned development.~~

~~(6) In the event that the developer seeks to modify the proposed timing schedule, such modification shall require the approval of the Planning Board. The Planning Board shall, in deciding whether or not to grant~~

approval of the modification, take into consideration prevailing economic and market conditions, anticipated and actual needs for residential units and nonresidential space within the municipality and the region and the availability and capacity of public facilities to accommodate the proposed development.

(7) The developer shall be required to gain the prior approval of the Planning Board if, after approval of the general development plan, the developer wishes to make any variation in the location of land uses within the planned development or to increase the density of residential development or the floor area ratio of nonresidential development in any section of the planned development. However, any variation in the location of land uses or increase in density or floor area ratio proposed in reaction to a negative decision of or condition of development approval imposed by the Department of Environmental protection pursuant to P.L. 1973, c. 185 (N.J.S.A. 13:19-1 et seq.) shall be approved by the Planning Board if the developer can demonstrate, to the satisfaction of the Planning Board, that the variation being proposed is a direct result of such determination by the Department of Environmental Protection.

(8) Once a general development plan has been approved by the Planning Board, it may be amended or revised only upon application by the developer approved by the Planning Board. However, a developer, without violating the terms of the approval pursuant to this act, may, in undertaking any section of the planned development, reduce the number of residential units or amounts of nonresidential floor space by no more than 15% or reduce the residential density or nonresidential floor area ratio by no more than 15%; provided, however, that a developer may not reduce the number of residential units to be provided pursuant to the Municipal Land Use Law, N.J.S.A. 40:55D-1 et seq., without prior municipal approval.

(9) Upon the completion of each section of the development, as set forth in the approved general development plan, the developer shall notify the administrative officer, by certified mail, as evidence that the developer is fulfilling his obligations under the approved plan. For the purposes of this section, "completion of any section of the development" shall mean that the developer has acquired a certificate of occupancy for every residential unit or every nonresidential structure, as set forth in the approved general development plan and pursuant to Section 15 of P.L. 1975, c. 217 (N.J.S.A. 52:27D-133). If the municipality does not receive such notification at the completion of any section of the development, the municipality shall notify the developer, by certified mail, in order to determine whether or not the terms of the approved plan are being complied with. If a developer does not complete any section of the development within eight months of the date provided for in the approved plan or if at any time the municipality has cause to believe that the developer is not fulfilling his obligations pursuant to the approved plan, the municipality shall notify the developer, by certified mail, and the developer shall have 10 days within which to give evidence that he is fulfilling his obligations pursuant to the approved plan. The municipality thereafter shall conduct a hearing to determine whether or not the developer is in violation of the approved plan. If, after such a hearing, the municipality finds good cause to terminate the approval, it shall provide written notice of the same to the developer and the approval shall be terminated 30 days thereafter.

(10) In the event that a developer who has general development plan approval does not apply for preliminary approval for the planned development which is the subject of that general development plan approval within five years of the date upon which the general development plan has been approved by the Planning Board, the municipality shall have cause to terminate the approval.

(11) In the event that a development which is the subject of an approved general development plan is completed before the end of the term of the approval, the approval shall terminate with the completion of the development. For the purposes of this section, a development shall be considered complete on the date upon which a certificate of occupancy has been issued for the final residential or nonresidential structure in the last section of the development, in accordance with the timing schedule set forth in the approved general development plan, and the developer has fulfilled all of his obligations pursuant to the approval.

H. Ancillary power. Whenever the Planning Board is called upon to exercise its ancillary power to grant a variance as set forth in Article I, § 44-7L(1) of this chapter, the Planning Board shall grant or deny approval of the application within 120 days after submission by the developer of a complete application or within such further time as may be consented to by the applicant. In the event that the developer elects to submit separate consecutive applications, the aforesaid provision shall apply to the application for approval of the

~~variance or direction for issuance of a permit. The period for granting or denying and subsequent approval shall be as otherwise provided in this chapter. Failure of the Planning Board to act within the time prescribed shall constitute approval of the application and a certificate of the administrative officer as to the failure of the Planning Board to act shall be issued upon request of the applicant.~~

~~§ 44-9. Applications; procedure for filing.~~

~~A. Applications for development within the jurisdiction of the Planning Board pursuant to the provisions of P.L. 1975, c. 291, shall be filed with the Secretary of the Planning Board. The applicant shall file at least 14 days before the date of the monthly meeting of the board seven copies of a sketch plat; seven copies of an application for minor subdivision approval; seven copies of an application for major subdivision approval or seven copies of an application for site plan review, conditional use approval or planned development. At the time of filing the application but in no event less than 10 days prior to the date set for hearing, the applicant shall also file seven copies of its plot plans, maps or other papers for which approval is sought or required by virtue of any provision of this chapter or any rule of the Planning Board. The applicant shall obtain all necessary forms, including the applicable checklist, from the Secretary of the Planning Board. The Secretary of the Board shall inform the applicant of the steps to be taken to initiate applications and of the regular meeting dates of the Board and the Subdivision and Site Plan Committee. Whenever the term "administrative officer" appears in this chapter or in the Municipal Land Use Law, P.L. 1975, c. 291, N.J.S.A. 40:5D-1 et seq., it shall refer to the Secretary of the Board.~~

~~B. Subdivision certificate.~~

~~(1) Any person desiring information as to whether land has been subject to or is statutorily exempt from subdivision approval may apply to the Planning Board for a certificate as to approval of subdivision of land, such application shall include:~~

~~(a) A copy of the current deed to the land.~~

~~(b) A survey of the land.~~

~~(c) A check in the amount of \$10 payable to the City of Hoboken.~~

~~(d) Such additional facts and/or documents that the applicant desires the Board to consider in issuance of the certificate.~~

~~(2) The certificate shall be issued within 15 days after receipt of the application and fee therefor. Such certificate shall be designated a "certificate as to approval of subdivision of land" and shall certify:~~

~~(a) There exists in the City of Hoboken a duly established Planning Board and an ordinance controlling subdivision of land.~~

~~(b) Whether a subdivision has been approved by the Planning Board as to the land. If a subdivision has been approved, a copy of the written resolution of approval shall be attached to the certificate.~~

~~(c) If there has been no subdivision approval, whether or not such land is statutorily exempt from the requirement of approval under the definition of subdivision set forth in N.J.S.A. 40:55D-7.~~

~~(3) The administrative officer shall keep a duplicate copy of each certificate, consecutively numbered, including a statement of the fee charged, in a binder as a permanent record of the Board's office.~~

§ 44-108. Advisory Committee

- A. To hear and decide appeals where it is alleged by the appellant that there is error in any order, requirement, decision or refusal made by the Zoning Officer or other Administrative Officer of the city based on or made in the enforcement of the Zoning Map or Chapter 196, Zoning.
- B. To hear and decide requests for interpretation of the Zoning Map or Chapter 196, Zoning, or for decisions upon other special questions upon which the Zoning Board is authorized to make determination in accordance with this chapter.
- C. To hear and decide requests for variances or other relief to allow departure from regulations set forth in Chapter 196, Zoning, in accordance with the Municipal Land Use Law (N.J.S.A. 40:55D-1 et seq.). Variance relief shall be limited to the following:
 - (1) Where (a) by reason of exceptional narrowness, shallowness or shape of a specific piece of property; or (b) by reason of exceptional topographic conditions or physical features uniquely affecting a specific piece of property; or (c) by reason of an extraordinary and exceptional situation, uniquely affecting a specific piece of property, or the structures lawfully existing thereon, the strict application of any regulation in Chapter 196, Zoning, would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon, the owner of such property, the Zoning Board may determine to grant upon an application or an appeal relating to such property a variance from such strict application of regulation so as to relieve such difficulties or hardship.
 - (2) Where, in an application or appeal relating to a specific piece of property, the purposes of the Municipal Land Use Law would be advanced by a deviation from the requirements of Chapter 196, Zoning, and the benefits of the deviation would substantially outweigh any detriment, the Zoning Board may determine to grant a variance to allow departure from regulations pursuant to Chapter 196, Zoning; provided however, that no variance from those departures enumerated in (3) of this section shall be granted under this subsection, and further provided that the proposed development does not require approval by the Planning Board of a subdivision, site plan or conditional use in conjunction with which the Planning Board has power to review a request for a variance pursuant to §44-105.J.
 - (3) Where special reasons exist to allow (a) departure from regulations pursuant to Chapter 196, Zoning, to permit a use or principal structure in a district restricted against such use or principal structure; (b) an expansion of a nonconforming use; (c) deviation from a specification or standard pertaining solely to a conditional use; (d) an increase in the permitted floor area ratio; (e) an increase in the permitted density, except as applied to the required lot area for a lot or lots for

detached one- or two-dwelling-unit buildings, which lot or lots are either an isolated undersized lot or lots resulting from a minor subdivision; or (f) a increase in height of a principal structure which exceeds by 10 feet or 10% maximum height permitted in the district for a principal structure, a variance under this subsection shall be granted only by affirmative vote of at least five members.

- D. No variance or other relief may be granted under the provisions of this section unless such variance or other relief can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the Master Plan, Zoning Map and Chapter 196, Zoning.
- E. The Zoning Board shall, in addition to the powers enumerated above, have the power given by law in accordance with N.J.S.A. 40:55D-76, to:

 - (2) Direct issuance of a permit pursuant to N.J.S.A. 40:55D-36 for a building or structure not related to a street.
 - (3) Grant to the same extent and subject to the same restrictions as the Planning Board, subdivision or site plan approval pursuant to N.J.S.A. 40:55D-37, et seq., or conditional use approval pursuant to N.J.S.A. 40:55D-67 whenever the Zoning Board is reviewing an application for approval of a "d" variance pursuant to N.J.S.A 40-55D-70d. The developer may elect to submit a separate application requesting approval of the variance and a subsequent application for any required approval of a subdivision, site plan or conditional use. The separate approval of the variance shall be conditioned upon the granting of all required subsequent approvals by the Zoning Board. No subsequent approval shall be granted unless such approval can be granted without substantial detriment to the public good and without substantial impairment of the intent and purpose of the Zoning Map and Chapter 196, Zoning.
- F. The Zoning Board shall annually review its decisions and prepare and adopt by resolution a report of its findings on Chapter 196, Zoning, provisions that were the subject of variance requests and its recommendations for amendments to Chapter 196, Zoning, if any. C. ~~The Board, when acting upon applications for preliminary or minor subdivision and preliminary site plan approval, shall have the power to grant such exceptions from the requirements for such approval as may be reasonable and within the general purpose and intent of the provisions for preliminary or minor subdivision and site plan review, as well as this chapter, if the literal enforcement of one or more provisions of this chapter is impracticable or will exact undue hardship because of peculiar conditions pertaining to the land in question, and it shall, from time to time, furnish to any person requesting the same a copy of its rules and information as to how appeals or applications may properly be filed with the Board for its decision thereon.~~

D. ~~The Board shall annually review its decisions and prepare and adopt by resolution a report of its findings on Zoning Ordinance provisions, which were the subject of variance requests, and its recommendations for Zoning Ordinance amendments, if any. § 44-206. Appeal; Application; Procedure

- A. An appeal to the Zoning Board may be taken by any interested party affected by any decision of the Zoning Officer or other Administrative Officer of the city based on or made in the enforcement of the Zoning Map or Chapter 196, Zoning. The appellant shall filing a notice of appeal, specifying the grounds for said appeal, with the Zoning or Administrative Officer from whom the appeal is taken, together with three copies of said notice of appeal with the Secretary of the Zoning Board. The Zoning or Administrative Officer from whom the appeal is taken shall forthwith transmit to the Zoning Board all the papers constituting the record upon which the action appealed was taken.
- (1) An appeal to the Zoning Board stays all proceedings in furtherance of the action from which the appeal was made unless the Zoning or Administrative Officer from whose action the appeal is taken certifies to the Zoning Board that, by reason of facts stated in the certificate, a stay would, in his/her opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed other than by an order of the Superior Court.
- (2) In exercising the above mentioned power, the Zoning Board may, in conformity with the provisions of N.J.S.A. 40:55D-1, et seq., or amendments thereto, reverse or affirm wholly or in part, or may modify the order, requirement, decision or determination appealed from, and make such other requirement, decision or determination as ought to be made, and to that end, exercise all the powers of the Zoning or Administrative Officer from whom the appeal was taken.
- B. Applications for development addressed to the original jurisdiction of the Zoning Board shall be filed with the Secretary of the Zoning Board. The applicant shall obtain all necessary forms from the Secretary of the Zoning Board, who shall inform the applicant of the steps to be taken to initiate applications and of the regular meeting dates of the Zoning Board.
- E. Within 45 days of the date of submission, the Secretary of the Zoning Board shall certify an application as complete, in consultation with Zoning Board professionals and any applicable municipal commissions and administrators, only if the application, checklist, all documents required by the checklist, application fee, and escrow fees have been received. If the application lacks required information, documents, or fees, or requires referral pursuant to §44-304, the applicant shall be so notified, in writing, of the deficiency and the application shall be deemed incomplete. In the event that an application is not certified as either complete or incomplete within 45 days of its submission, it shall be, by default, considered complete for the purpose of commencing the applicable Time of Decision action by the Zoning Board.
- C. The Zoning Board, at its discretion, may require any of the following: correction of any information found to be in error; submission of additional information not specified in this chapter; or revisions to the accompanying documents as are reasonably necessary to make an informed decision as to whether the requirements for approval of the application have been met.

§ 44-207. Time of Decision

- A. The Zoning Board shall render its decision not later than 120 days after (a) the date an appeal is taken from the decision of a Zoning Officer; or (b) from the date an application for development involving a variance or direction for the issuance of a permit pursuant to §44-205.E, is certified as complete by the Secretary of the Zoning Board in consultation with the Zoning Board professionals and any applicable municipal commissions and administrators.
- B. In the event an applicant elects to submit separate consecutive applications, the aforesaid provision shall apply to the application for approval of the variance or direction for the issuance of a permit. The period for granting or denying any subsequent site plan or conditional use approval shall be the same Time of Decision required of the Planning Board, as set forth in §44-107.

- C. The Time of Decision may be extended only by consent of the applicant. Consent shall be made on the record at a hearing or in writing. Extensions on the Time of Decision may be granted for no more than one year from the date of the original Time of Decision deadline, at which time the application shall be acted upon or dismissed without prejudice.
- D. Applications that have been deemed complete shall be scheduled for a hearing before the Zoning Board within the time of action stated above. If the applicant fails to appear when scheduled and the Time of Decision will expire prior to the next regularly scheduled meeting of the Zoning Board, the application shall be dismissed without prejudice.
- E. Failure of the Zoning Board to act within the period prescribed shall constitute approval of the given application. At the request of the applicant, the Secretary of the Zoning Board shall so certify that the Zoning Board failed to act and that the application is therefore approved. Said certificate be sufficient in lieu of the written endorsement or other evidence of approval, herein required.

§ 44-208. Appeal of Zoning Board of Adjustment Decision

- B. Such an appeal to the governing body shall be made within 10 days of the date of publication of such final decision of the Zoning Board by serving the municipal clerk, in person or by certified mail, with a notice of appeal specifying the grounds thereof and the name and address of the appellant and name and address of his or her attorney, if represented. Such appeal shall be decided by the governing body only upon the record established before the Zoning Board.

The governing body may reverse, remand or affirm, with or without the imposition of conditions, the final decision of the Zoning Board approving such variance. The review shall be made on the record before the Zoning Board. The affirmative vote of a majority of the full authorized membership of the governing body shall be necessary to reverse, remand or affirm, with or without conditions, any final action of the Zoning Board.
- E. Any appeal to the governing body shall stay all proceedings in furtherance of the action in respect to which the decision was made, unless the Zoning Board certifies to the governing body that, by reason of facts stated in the certificate, a stay would, in its opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed other than by an order of the Superior Court.

§ 44-17. Appeals and applications.

A. Appeals to the Board of Adjustment may be taken by any interested party from a decision or action by the Zoning Officer in regard to the Zoning Ordinance or Official Map, including the denial of a certificate of zoning compliance or the issuance of the same subject to conditions based upon the report of the Historic Preservation Commission. Each appeal shall be taken within 20 days by filing a notice of appeal with the Zoning Officer, together with three copies of said notice with the Secretary of the Board of Adjustment. In such case, proceedings shall not be stayed otherwise than by a restraining order, which may be granted by the Board of Adjustment or by the Superior Court of New Jersey on application or notice to the officer from whom the appeal is taken and on due cause shown.~~

- I. Whenever review or approval of an application by the County Planning Board is required by N.J.S.A. 40:27-6.3, in the case of a subdivision, or N.J.S.A. 40:27-6.6, in the case of a site plan, the Planning Board or Zoning Board shall condition any approval that it grants upon either timely receipt of a favorable report on the application by the County Planning Board or approval by the County Planning Board by its failure to report thereon within the required time pursuant to N.J.S.A 40:27-6 et seq.

§ 44-26. Applications.

On all applications involving a site plan, subdivision or conditional use, the applicant shall be provided with the checklist covering such application set forth in the appendix to this chapter. An application shall be deemed complete upon certification of such fact by the municipal agency or its designee. In the event that an application is not certified as complete within 45 days of its submission, it shall be deemed complete for purposes of commencing the applicable time period for action by the municipal agency, unless the application lacks information indicated on the checklist or application form and the municipal agency has notified the applicant, in writing, of such deficiency within 45 days of submission of the application. The applicant may request a waiver from one or more of the submission requirements, which waiver request shall be granted or denied within 45 days. Nothing herein shall be construed as diminishing the applicant's obligation to prove in the application process that he is entitled to approval of the application. The municipal agency may subsequently require correction of any information found to be in error and submission of additional information not specified in this chapter or any revisions in the accompanying documents as are reasonably necessary to make an informed decision as to whether the requirements necessary for approval of the application for development have been met. The application shall not be deemed incomplete for lack of any such additional information or any revisions in the accompanying documents so required by the municipal agency. All applications in the Historic District shall be referred to the Historic Preservation Commission for its recommendation and report.

§ 44-305. Application Fees and Escrow Deposits

- A. Pursuant to N.J.S.A. 40:55D-8(b), the City shall be reimbursed for the administrative costs associated with a development application from application fees.
- B. Pursuant to N.J.S.A. 40:55D-53.1 and 2, the City is further entitled to offset the costs of professional services engendered by a development application from escrow deposits.
 - (1) Escrow deposits shall be in addition to the application fees and shall be used by the Planning Board or the Zoning Board to pay professionals for services rendered for review of applications for development, review and preparation of documents, inspection of improvements, or other purposes under the provisions of the Municipal Land Use Law. Those application review and inspection charges shall be limited only to professional charges for review of applications, review

and preparation of documents, inspections of developments under construction, and review by outside consultants when an application is of a nature beyond the scope of expertise of the professionals normally utilized by the City. The only cost that shall be added to any such charges shall be actual out-of-pocket expenses of such professionals or consultants, including normal and typical expenses incurred in processing applications and inspecting improvements. No applicant shall be charged, from escrow for any municipal, clerical or administrative functions, overhead expenses, meeting room charges or any of the municipal costs and expenses except as provided for specifically by statute, nor shall a municipal professional add any such charge to his or her bill.

(2) The City shall be entitled to be reimbursed for the following: for the review of applications, both as to completeness and as to content; and for the review and preparation of documents, such as, but not limited to, drafting resolutions, developer's agreements and necessary correspondence with applicant or applicant's professionals.

(3) If review costs exceed the escrow deposited, the applicant shall pay the additional amount within 15 days of the request for additional funds. Failure to remit the additional required deposit within the requested timeline shall render the application incomplete, and no further action or proceedings shall be taken by the Planning Board or Zoning Board until after compliance. Where the review costs are less than the amount of the escrow deposit, the difference shall be returned to the applicant within 120 days of final disposition of the application.

C. A schedule of application fees and escrow deposits is hereby adopted by the governing body and attached hereto as Appendix B.

D. An application shall be deemed to be incomplete until all application fees and escrow deposits are submitted. Fees and escrow shall be submitted as separate checks, payable to the City of Hoboken, in the amounts indicated on the fee schedule set forth in Appendix B. Where more than one fee category applies, the fee shall equal the combined total of fees required for each type of application.

§ 44-27. Fees.

RE: An Ordinance Amending Chapter §44 (Land Use Procedures) Updating and Consolidating the Processes and Procedures for Land Use Boards

On the March 19, 2014 City Council agenda is the ordinance to amend Chapter 44 regarding land use procedures. As well, this ordinance would amend the checklist and application form for the Planning Board and Zoning Board. This memo is to provide some explanation as to the purpose of this amendment and perhaps address some of the questions you may have regarding the ordinance.

Chapter 44 is the administrative chapter for the land use boards; Planning Board and Board of Adjustment. The chapter establishes the boards and officially adopts standards and procedures, as set forth by the New Jersey Municipal Land Use Law (MLUL). This amendment is a comprehensive update to Chapter 44 Land Use Procedures, making the chapter more concise and user friendly, and consolidating all Planning Board and Zoning Board of Adjustment processes and procedures into a single location within the code. The ordinance corrects inconsistencies and cleans up changes that have occurred over the years to assure that the content of the chapter properly reflects the MLUL and the Master Plan of the City of Hoboken.

This chapter will pull together, in one place, all administrative and procedural items related to the Planning Board and Zoning Board of Adjustment. Having all related information in one place makes the code easier for residents to use and understand. Here are some of the key components to the ordinance amendment:

- This amendment does not convey any additional powers to the boards that are not statutorily set forth in the MLUL.

- The make-up of regular and alternate members on each board remains the same as amended by the City Council in 2009. The Council is the appointing authority for the Board of Adjustments and the Mayor is for the Planning Board.
- The fee and escrow structure remains the same as amended by the City Council in 2010.
- Currently, establishment and administration of the Board of Adjustment can be found in both chapters 44 and 196 (Zoning Code). There is no reason for the Board of Adjustment to appear in chapter 196. This amendment removes the board section from the Zoning Code, and consolidates all elements of the board's administration to chapter 44. By doing this we eliminate redundancy and some inconsistencies in the code.
- The current section concerning appeals (Article IV) is retained but relocated as a subsection of Article II Zoning Board of Adjustment. The appeals addressed in this section are those appeals of a Board of Adjustment decision to the City Council. This appeal process does not apply to decisions of the Planning Board; therefore it was moved from the general chapter to the Board of Adjustment section.
- The Planning Board and Zoning Board of Adjustment sections mirror each other in format, with consistent language used from one to the other where appropriate.
- Several redundancies from the Planning Board and Zoning Board of Adjustment sections have been eliminated by amending the "Provisions Applicable to Both" section. Such matters as meetings, minutes, application procedures, fees and escrow, hearings, notice requirements, decisions, publication of decisions, and dismissal of inactive applications, which are common to both boards are spelled out here to assure consistency of administrative procedures.
- A section has been added clarifying the referral process to the Historic Preservation Commission, Shade Tree Commission, Floodplain Administrator, and County Planning Board where applicable.
- The other key element to this amendment is the introduction of a new application and checklists. The checklists have been split up into application types; subdivision, site plan, variances and conditional use. By making the checklists type specific, the applicant has a more focused list of requirements to meet and documents to provide when filing an application; and eliminates documents that are unnecessary. The application has been converted to an electronic form that can be filled out on line; it has also been reduced from 14 pages to 6 by eliminating redundancy.
- The chapter, application and checklists have already been reviewed by the Planning Board Planner, Engineer and Attorney who enthusiastically support their adoption.
