Dear City Council Members:

Working together

I recognize that there are many concerns from residents, and I am writing to propose a process between my Administration and all Council members to ensure that concerns can be addressed as efficiently as possible within the limits of budgetary constraints.

In order to ensure resident concerns are being adequately addressed by City Hall, the most efficient process to submit routine constituent issues (potholes, lights out, trash, etc.) which some Council Members are already using is through the Hoboken 311 system. It can be accessed through www.hoboken311.com or with the Hoboken 311 application for iOS and Android mobile devices. If you prefer, you can also reach out directly to my Chief of Staff Vijay Chaudhuri at vchaudhuri@hobokennj.gov, and include the appropriate director on the email with the specific issue. Mr. Chaudhuri will work with the director to ensure you receive communication within a reasonable time period regarding the status of the request, and when it is completed. He will respond to you shortly afterwards so you can be assured he has received the request and will be working on it.

For more non-routine requests that require engineering or planning or more significant budgetary resources, please direct them in writing to Business Administrator Quentin Wiest. We also ask that you copy Mr. Chaudhuri on any email to Mr. Wiest. Mr. Chaudhuri will follow up with you to confirm receipt and collect any additional information needed. If matters are discussed at a Council meeting, we ask that you please follow up in writing to the Business Administrator with a copy to Mr. Chaudhuri to avoid any miscommunication.

As an example, we regularly receive requests for more significant traffic control and traffic calming measures like speed humps, traffic signals, and raised crosswalks. Even stop signs require conducting engineering work for a warrant analysis. Since we are in the process of finalizing a budget for introduction, this is a good time for Council Members to provide us with all of the traffic and pedestrian safety issues you would like to see addressed. We will develop cost estimates so the Council can decide on how much to allocate in the budget to address these matters. In prior years, we have received many more requests for traffic calming and traffic control measures than we are able to address through the budget, so we want to provide as much information as possible to the Council before a budget is finalized and adopted.

Municipal budget

While we are pursuing cost-saving initiatives when it comes to health care, this year, the cost of group health benefits increased by \$1,183,000. Largely because of this increase, the introduced budget includes an increase of the municipal purposes tax levy of \$1,057,306. As a result, the tax increase on the average assessed residential property is \$1.50 on the municipal purposes tax bill.

The 2015 introduced budget proposes using \$8,800,000 of surplus as revenue, down from \$9,838,522 in 2014. My Administration is committed to responsible use of surplus and preserving a healthy surplus balance. The amount of surplus to be used as revenue is the amount resulting from 2014 operations. We have also increased the appropriation for the capital improvement fund to provide down payment money for bonding for needed capital improvements. Finally, our improved credit rating of AA+ and ability to issue debt on our own versus being part of the County debt pool has resulted in debt service savings.

Potholes and paving

Additionally, I want to update you on the status of addressing potholes on city streets. We have recently leased a "Pothole Killer" truck which has filled over 1,000 potholes, including hundreds on Washington Street, in just five days of operation. The attached map shows the progress including three days in late January as well as on March 9th and March 10th. We will continue using the "Pothole Killer" across town for the next week, including along Washington Street, and we intend to lease the vehicle for an additional two weeks.

The Pothole Killer is a more efficient and cost-effective solution to repairing roads. With spray injection technology, a single vehicle operator controls a hydraulic boom, which clears the pothole of debris, applies liquid asphalt to fill and seal it, and then tops it off with a dry aggregate coating. The whole process takes roughly 90 seconds per pothole. Whereas previously the City relied on cold patches in the winter which often had to be replaced several times per season, this equipment allows long-lasting hot asphalt repairs to be made even in cold and wet weather.

In addition to repairing potholes, as you know, we have an aggressive repaving program planned for this year thanks to the Council's support. A map of streets planned for repaving this year is attached. Please note that since PSE&G will be conducting gas main work along northern Bloomfield Street and 11th Street, the repaving of those road segments will take place after PSE&G completes their work.

Affordable housing

I also want to let you know about a great potential opportunity to expand the number of affordable housing units within Clock Towers. On the agenda this week, we are requesting the Council's approval of a 6 month extension to the Clock Towers PILOT so we can explore a potential new HUD affordable housing program that may soon be announced and which could enable us to expand the number of affordable housing units in Clock Towers.

There are a number of projects subject to a payment in lieu of taxes (PILOT) that will be expiring soon, and my Administration is working to ensure that there is fair access to affordable housing for all members of the community. This includes working with property owners to understand how they manage their waiting lists and creating a website to provide the public with information on accessing affordable housing, among other measures.

The housing development Clock Towers at 300 Adams Street is a project that has been subject to a PILOT agreement with the City since December 19, 1974. The PILOT was established because Clock

OFFICE OF THE MAYOR

Towers is a non-profit that provides some level of affordable housing. Their PILOT agreement will end at the end of March 2015.

The owner of Clock Towers has requested an extension of the PILOT agreement for an additional 10 years, to get the full 50 year tax abatement. As part of negotiating that agreement, the City Administration and Clock Towers would like to explore the possibility of increasing the number of affordable housing units for the site. It is my understanding that HUD is preparing to announce a program that might make project-based vouchers (vouchers attached to a specific housing unit in the building) available to projects such as this one. To explore the possibility of applying for and including those additional affordable units in a potential 10-year PILOT agreement extension, I am proposing a temporary 6-month extension of the PILOT agreement. The owner is in agreement with this temporary extension and has informed me that they are interested in pursuing the option of additional project-based vouchers to expand the number of affordable units on site.

On the agenda for the March 18th meeting is a resolution to authorize that extension that I hope you will all support. Our special legal counsel for this matter, Jong Sook Nee from McManimon Scotland & Baumann has prepared a memo dated March 4, 2015 with additional information and will be at that meeting to answer any questions you may have regarding the temporary extension.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Dawn Zimmer

BE IT FURTHER ORDAINED, that a certified copy of this ordinance as introduced be filed with the Director of the Division of Local Government Services within 5 days of introduction; and,

BE IT FURTHER ORDAINED, that a certified copy of this ordinance upon adoption, with the recorded vote included thereon, be filed with said Director within 5 days after such adoption.

Subject: Construction Bid Analysis and Award

Dear Mr. Dineros:

We have reviewed the two bids received for bid number 15-01.

We have compared our proposed construction cost estimate to that of Dee-En Electrical Contracting, the apparent low bidder whose lump sum bid totals \$1,042,600.

On March 10, 2015, I chaired a post-bid review meeting attended by myself and Dominick Livia of Dee-En Electrical Contracting.

E.I. Associates reviewed the Dee-En Electrical Contractor's bid and found all to be in order and acceptable. The bid appears that Dee-En Electrical Contractors fully understands the scope of the work per questions and answers from the post-bid meeting.

11 March 2015
EG7452.01
Page 2

There are no unit prices, and add alternate A and B may be accepted by Hoboken in this bid.

Dee-En Electrical Contracting has completed projects of this nature in the state of New Jersey and his sub-contractors are familiar with the project requirements.

Based upon our analysis, E.I. Associates TAKES NO EXCEPTION TO the award of the City of Hoboken Emergency Generator Installation construction contract to Dee-En Electrical Contracting at a cost of \$1,042,600.

Very truly yours,

EI ASSOCIATES

City of Hoboken

Hoboken, New Jersey 07030

Mr. Morgan,

Amano McGann Inc. (AMI) is pleased to furnish Pay by Plate upgrade kits for Hoboken's Aura and Elite Paystations. The Metric Aura and Metric Elite paystation provides a variety of parking mode options including Pay & Display, Pay-by-Space and Pay-by-Plate. In order to convert a paystation from Pay and Display requires a unique keypad and cabling that connects to a Metric only proprietary PCB (Printed Circuit Board).

As such this makes Metric and therefore Amano as their sole distributor in the US as the only firm that can provide this upgrade. Further the paystation operates with a propriety operating software that can only communicate with the Metric provided keypads.

We understand the complexities or more importantly the specialization required for Hoboken to upgrade the existing paystations and how to coordinate and implement to your unique schedules and requirements.

Hoboken Composting Proposal

Background

Community Compost Company (CCC) offered drop spots for Hoboken residents to drop off their compost at the farmer's markets 2x/week from June 2014-November 2014. 43 people participated with ongoing contracts at \$20/month and 110 people made one-time drops, paying \$6/drop. CCC generated a total of \$4,100 in revenue including sales tax. Total costs for the program were nearly \$20,000. CCC began offering residential pick up services in January of 2015.

Current Status

CCC has 28 customers for residential pick up service, of which 15 households have weekly pickup and pay \$27 per month, and 13 clients have biweekly pickup and pay \$15 per month (plus tax and Paypal fees for both). Revenue generated is \$600/month. Due to the regulatory environment in New Jersey, CCC hauls material to the Hudson Valley in New York (85 miles from Hoboken) where we manage our own composting operations in partnership with local farms. Since January of 2015, CCC has diverted approximately 1,750 lbs of food scraps from the waste stream.

Looking Forward

CCC would like to expand residential pick up service in Hoboken. Out of 24,000 households, approximately 28% participate in recycling programs in the city (6,700 households). We estimate that 50% of those households would compost if given the opportunity and education (3,350 households), and that 20% of those households would be willing and able to pay for service, for a current addressable market of approximately 670 households (at \$25/month average per client, potential \$200,000 annual revenue).

CCC has two objectives in Hoboken:

1. to build our client base from 30 residential pickup customers to 100 within the next 12 months
2. to make composting available to participants, via subsidization from the city of Hoboken, for those who can't or won't pay for service but will participate (estimated 2,700 households)

We expect the market for both paying and non-paying participants to expand incrementally with education and marketing.

Proposal

CCC's current hauling system can accommodate a total of 72 households per trip, at an average of 4 gallons of compost per week per household. Given labor and transportation costs, the primary cost drivers, CCC needs 63 customers each week paying \$8/pick-up to break even per load hauled. Currently, we have an average of 18 households participating each week at approximately \$6/pick-up. CCC's goal is to procure support from the City of Hoboken for continuing to build the residential pick-up program, and to offer drop spots where we can test out participation on a donation basis.

Residential Pick-Up Service

Residential pickup program expansion is key to continuing to offer composting services in the City of Hoboken. We propose that the city subsidize 1 haul per week for 1 year, using CCC's current hauling system, to support both expansion of residential pickup and re-initiating drop spots to residents. We will continue to charge residents \$8/pickup. Costs are \$500 per trip to haul materials, which equals \$2,150 per month and \$25,800 per year.

Drop Spots

Drop spots provide a less expensive alternative to residents seeking to compost food scraps. We propose that beginning in May 2015, CCC sets up temporary drop spots on Saturdays at 3 locations in Hoboken: the farmer's market, Shoprite and City Hall. They will be set up from 9am until 2pm each Saturday. At these locations we will sell compost management equipment (buckets, bags, etc.) and finished compost, market our door-to-door collection service, and accept compost from individuals. People can use any containers they choose, but CCC will not accept garbage bags or other non-compostable refuse. People will be responsible for cleaning their own containers, however we will provide a portable pressure washer at each drop site. There will be no fee charged to residents, but we will ask for a suggested donation of \$1/gallon.

Drop Site	Units	Unit Cost	Total	Frequency
Hours - 2 people, 7 hours each	14	\$18.00	\$252	per week
Literature - flyers	100	\$0.50	\$50	per week
Wifi for tablet	1	\$50.00	\$50	per month
Software - per household	75	\$3.00	\$225	per month
Equipment	1	\$1,200.00	\$1,200	one-time
			\$1,574	month/site
			\$5,921	3-month total
Total Costs: 3 sites for 3 months			\$17,762	

No hauling fees are included in the drop spot budget as we anticipate that we can utilize our current hauling capacity to accommodate participants in the first 3 months. At 3 months, the site will be evaluated for resident participation and growth, volume of material, location, and whether additional hauling/transport costs will be required based on volume and donations.

Marketing

We propose a comprehensive marketing campaign to accomplish 3 objectives:

1. Educate residents about composting
2. Inform residents about available services
3. Encourage residents to participate

Our current marketing tactics include newsletters to our opt-in email list, social media posts on Facebook, Twitter and Instagram, public relations activities including local and national media coverage, and tabling at local events. We propose building on our current foundation as follows:

2015-16 Marketing

Total						\$30,180

City Assistance

To accomplish these goals, the total financial support requested from the City of Hoboken is \$73,742 for 12 months. In addition to financial support, we are requesting in-kind support from the City of Hoboken in two areas: logistics/physical plant and marketing.

Logistics/physical plant support

- Storage for equipment – covered, secure storage for toters, pails, power washer, bicycle with trailer, and parking for a ¾ ton pick-up truck
- Place to wash buckets with warm water and drain, with 24-hour access, heated to at least 50 degrees Fahrenheit, including a sink
- Assistance procuring appropriate destination drop spot locations such as City Hall, Shoprite and Saturday farmer's market

Marketing Support

- Assistance procuring promotion locations at weekday farmer's markets
- Assistance contacting elementary and middle schools to schedule Earth Day assemblies
- Promotion through city website, print materials, social media

Outcomes

In combining both residential pick-up and drop spot programs, reaching our goal of 100 households for residential weekly pick-up service and get 75 drops/week/drop site will divert approximately 2-4 tons of material per week out of Hoboken's waste stream. We will generate \$4,800 per month in revenue and estimate our costs to be \$4,200 per month at the end of 12 months and anticipate a platform for continued growth in organics collection in the City of Hoboken.

Benefits to Hoboken:

- Estimated saving in tipping fees of \$15-\$20,000 from composting
- First City in New Jersey and first program in Hudson County
- Creation of 2-4 Green Jobs
- Supports Mayor's Climate Action Committee
- Food waste collection supports increased recycling participation rates
- Education and increased awareness results in greater implementation of home composting.
